

AQUADOR 22 C CABIN

VENE 10 BÂT
12.-21.2.2010

The Aquador 22 C is the smallest cabin boat of the Aquador range to be equipped with a closable cabin. It is suitable for both excursions and for cruising and overnighting. You can walk right through the cabin and, if necessary, also along the side decks. Its compact size incorporates many features of larger boats such as berths for four people and a separate flushing toilet.

- you can pass right through the cabin, which is bright with large windows and two roof hatches
- stylishly designed steering console; control equipment ergonomically located
- a door in the windshield giving access to the fore deck
- in the cabin a dinette, refrigerator and pantry under the driver's seat
- side decks suitable for walking along
- spacious open area aft; seating for two and a fold-away table
- cockpit surrounded by railings on the aft deck
- two transom gates to the bathing platform
- mountings, railings and cleats made of HST steel
- flushing toilet
- pressure water system
- berths for four; double berth under the aft open area and berth for two in the forward cabin.
